Professional Summary

Junior Front-End Developer with experience in HTML, CSS, JavaScript, and TypeScript. Currently interning at Callidus 3.0, working on developing reactive interfaces, styling, and API integration. I studied programming at IEFP (1445 hours), covering web development, data structures, networks, and operating systems. I am self-taught in Angular, applying my knowledge in personal projects and during my internship. I am seeking my first professional opportunity as a Front-End Developer to contribute to innovative projects and continue my technical growth.

Professional Experience

Front-End Developer Intern

Callidus 3.0 – Madrid, Spain / Porto, Portugal (Current)

- Development of reactive forms using Angular
- Implementation of dynamic functionalities with TypeScript
- Styling and enhancement of the user interface
