# **Professional Summary**

Junior Front-End Developer with experience in **HTML**, **CSS**, **JavaScript**, **and TypeScript**. Currently interning at **Callidus 3.0**, I work on developing **reactive interfaces**, **styling**, **and API integration**.

I studied **programming at IEFP (1445 hours)**, covering concepts in **web development**, **data structures**, **networks**, **and operating systems**. I self-taught **Angular**, applying my knowledge in personal projects and during my internship at **Callidus**. In addition to my technical skills, I have proficiency in **American English (B2)**, **Spanish (C2)**, **and Italian (A2)**, a quick learning ability, excellent interpersonal skills, as well as

I am seeking my first professional opportunity as a **Front-End Developer**, where I can contribute to innovative projects and continue growing technically.

## **Professional Experience**

### Front-End Developer Intern

Callidus 3.0 – Madrid, Spain / Porto, Portugal

creativity, planning, organization, and design skills.

- Current Position
  - Development of reactive forms using Angular;
  - Implementation of dynamic functionalities with TypeScript;
  - Styling and enhancement of the user interface;
  - Visual and functional implementation of Angular components, reactive forms, Bootstrap, among others;

- Code optimization and bug fixing;
- Collaboration with the team for the continuous improvement of the system.

#### **Administrative Assistant**

Talphaville Burle Marx Association – Alphaville, Santana de Parnaíba, Brazil

#### Planning and Organization

- Conceptualization, planning and execution of internal events in the condominium;
- Development of newsletters and campaigns to engage residents;
- Management and record keeping of events and services provided.

### Administrative Management and Customer Service

- Organization of mail, accounts payable, and internal documents;
- Budgeting and procurement of materials for administration, cleaning, and maintenance:
- Creation of digital flyers and newsletters, enhancing graphic design skills;
- Preparation of spreadsheets for financial control and task organization;
- Customer service and resolution of administrative issues.

### Projects Developed

Throughout my career, I have developed projects for restaurants, online stores, commemorative events, and institutional landing pages. Among the most relevant projects:

- Fictitious Projects:
  - Restaurant Platform, developed with Flask and Jinja for dynamic content rendering;
  - Redesign of the Ferrari website, exploring styling;
  - Landing page for a bookstore, to explore visual design concepts using simple tools (HTML and CSS);
  - Static page, for a Q&A form in commemoration of the 25th of April;

- Fictitious website for Callidus, exploring design and functionality in creating simple yet attractive sites with HTML, CSS, and JavaScript.
- Projects for Real Clients:
  - Online store for selling T-shirts, using PHP and MySQL for product and order management (still in development);
  - Web app for a telecommunications company, performing various functions during my internship, integrating interactive forms, data validation, styling, etc. (Angular, Bootstrap, and TypeScript);
  - ✓ **Assisting with solutions** for building new projects at Callidus.
- Olick here to see some of the projects

# X Technologies and Tools

- Front-End: HTML5, CSS3, JavaScript, Angular, TypeScript
- **Styling**: CSS, Bootstrap
- Back-End: PHP (XAMPP & phpMyAdmin), Flask (Python), MySQL

### **Education**

- Programming Course 1445 hours
- PIEFP Institute of Employment and Professional Training
- 7 2024 Present
- ▼ Fundamentals of Computing Computer architecture, networks, operating systems;
- ▼ Programming Logic Algorithms, data structures, computational thinking;
- **Development** HTML, CSS, JavaScript, PHP, MySQL, SQLServer, C, C++, C#, Java, Portugol;
- ✓ **Practical Projects** Application of concepts in dynamic systems and interactive websites.
- © Course Documentation: see the Reflective Learning Portfolio (PRA) for each module by clicking HERE

- **Technical in Logistics and Administration**
- 📍 ITB Instituto Tecnológico de Barueri Barueri, SP Brazil
- ✓ Management of logistical and administrative processes;
- **☑** Strategic planning and inventory control;
- Optimization of business processes.

# **Languages**

- Portuguese Native
- Spanish Fluent (C2)
- **English** Advanced (B2)
- Italian Basic (A2)
