💡 Frontend Developer| Angular | JavaScript | TypeScript | HTML | CSS | Bootstrap

🔗 Portfólio | LinkedIn | GitHub

🎯 PROFESSIONAL EXPERIENCE

👉 **FRONT-END DEVELOPER | Curricular Internship**

Callidus 3.0 – Madrid, Spain / Porto, Portugal - January 2025 – February 2025

• Development of interactive and responsive web interfaces with Angular and TypeScript

• Integration and consumption of RESTful APIs with performance optimization

• Creation of reusable components following development best practices

• Implementation of responsive design with Bootstrap and CSS3

• Application testing using Postman and advanced debugging

• Collaboration in agile team with Scrum methodologies

Featured Project: Complete application for Spanish telecommunications company with Angular, consuming real-time APIs and modern interface (confidential project under NDA).

🔧 TECHNICAL SKILLS

Frontend: Angular, React, JavaScript, TypeScript, HTML5, CSS3, Bootstrap

Backend Basics: PHP, Python, Flask

Databases: MySQL, SQL

Version Control: Git, GitHub, Azure DevOps

Tools: Postman, Visual Studio Code, Figma

Methodologies: Scrum, Kanban, Agile Development

📚 ACADEMIC EDUCATION & CERTIFICATIONS

🎓 **CYBERSECURITY SPECIALIST TECHNICAL COURSE (ONGOING)**

 IEFP – Portugal| 2025 – Present

1510 hours | Focus on information security, vulnerability analysis, ethical hacking

🎓 **PROGRAMMING TECHNICAL COURSE**

IEFP – Portugal | February 2024 – February 2025

1445 hours | Full-stack web development and networking

Skills developed:

• **Frontend:** HTML5, CSS3, Bootstrap, JavaScript ES6+, TypeScript, Angular

• **Backend:** PHP, Python, Flask

• **Databases:** MySQL, SQL Server

• **Tools:** Git, Azure DevOps, Postman

• **Methodologies:** Scrum, Kanban

🎓 **COMPLETE FRONT-END TRAINING**

Udemy | 45 hours - HTML, CSS, JavaScript, React

🎓 **ADVANCED ANGULAR COURSE**

Udemy | 45 hours - Angular Framework, TypeScript, SPA development

🎓 **GROWDEV FRONT END**

GrowDev | 20 hours - Frontend development techniques

🎓 **TECHNICIAN IN LOGISTICS AND ADMINISTRATION**

ITB – Technological Institute of Barueri, SP | Brazil

Operations management, supply chain, administrative systems

👩‍💻 PROFESSIONAL PROFILE

I am a Frontend developer focused on creating functional and well-thought interfaces. I have experience with Angular and JavaScript, and I'm always looking for ways to improve my technical skills. I'm in a career transition and found in programming an area where I truly found myself. Currently, I'm also studying cybersecurity to develop more secure and complete applications.
